## SFCWA Strategic Plan as Revised 9/15/11

*Mission: Assist SFCWA member agencies in assuring a sufficient reliable and high quality water supply for their customers; maximize the efficient operation and integration of the State Water Project and federal Central Valley Project.*

*This mission shall be pursued utilizing the following implementing strategies:*

- *Plan, approve and implement or manage infrastructure projects*
- *Implement and facilitate habitat conservation measures in the Delta*
- *Research and publish findings on Delta ecosystem stressors toward developing management actions that further California's co-equal goals of a restored Delta ecosystem and water supply reliability.*
- *Assist in development and implementation of the Bay Delta Conservation Plan*
- *Assist in development and implementation of the Delta Habitat Conservation and Conveyance Program*
- *Participate in joint media outreach team comprised of SWP and CVP member agencies*
- *Represent SFCWA interests before the Delta Stewardship Council, Delta Conservancy and Delta Protection Commission*
- *Coordinate State and Federal Water Contractor interests in SWRCB matters of joint interest.*

### Strategic Objectives:

As directed by the SFCWA Board of Directors, the SFCWA will pursue the following 2010-2011 objectives in support of its mission.

### Habitat Program

1. Complete environmental review, permitting and design of the Yolo Ranch habitat restoration project by July 2011.
2. Complete a staffing and financing plan for SFCWA pursuit and implementation of 4000, acres of habitat restoration to be credited to permit requirements and the Bay-Delta Conservation Plan by October of 2010

### Delta Governance and Water Management

3. Monitor and respond effectively to activities of the Delta Stewardship Council, including continued comment on the Delta Plan, and coordination with the Ag Urban II Coalition to develop and advance a Delta Plan alternative.
4. Monitor and respond effectively to activities of the Delta Protection Commission and Delta Conservancy that affect SFCWA's mission.
5. Support the development of capacity by the Delta Conservancy to manage completed habitat development projects.
6. Initiate a coordinated Upstream-Export water agency effort to develop a template process and framework for the SWRCB to develop Delta and upstream flow objectives. Evaluate utility of effort with Board of Directors six to nine months after initiation.
7. Develop SFWCA's capacity to assume roles and responsibilities necessary for effective implementation of BDCP, as determined the SFWCA Board.
8. Present Salmon Recovery Group Initial Set of High Priority Actions to Help Recover Salmon to the Board by October of 2011.

### Science Program

9. Develop a research plan for Science Program funding, that identifies priority projects, their relevance to SFCWA, how the results will be used by SFCWA, and a description of each project including estimated costs and completion dates.
10. Evaluate the existing Bay Delta monitoring programs to determine if they provide the data needed to guide Delta environmental decision-making, presenting recommendations for enhancing Bay Delta monitoring, in a report to the Board for approval no later than December 2012.
11. Develop and Implement a Science Program Communication Strategy that strengthens the scientific foundation for environmental management of the Delta. Present Communication Plan, in a report to the Board for approval no later than January 2012.

(note: next review of objectives will occur as part of the annual budget process)
